

Medical gas devices

LEAF BASE BLOCK - SIDE PIPE

Product description

The base block of the LEAF terminal unit line is suitable for all sockets of all standards: NF-S 90-116, BS 5682, DIN 13260-2 and SS 8752430; simple installation and quick maintenance, the base block is adjustable in 6 positions thanks to the provision of n° 6 holes for fixing, once the base block is fixed the

socket can be rotated to the correct position; the pipe is on the side of the base block.

Organismo Notificato n. 0476
Notified Body nr. 0476

Normatives

UNI EN ISO 7396-1 | UNI EN ISO 9170-1 | UNI EN ISO 15001

Components

- Base block in brass.
- Specific gas bracket in AISI316.
- Sphere in AISI316.
- O-Ring in EPDM PEROX.
- Copper tube external Ø 8mm.
- ABS cap
