

Flaming devices

BS/86 torch

Product description

The BS/86 automatic flaming torch is designed for the automatic flaming of slabs or flat surfaces; the welding torch has a built-in trident water-cooling system to cool the head and stone. Compatible with all BS, FDT/3-4 series single-flame nozzles and BS/L and BS/T4 multi-flame nozzles. All BS/86 series torches have flashback arrestors and reverse flow check valves on both gas lines (main and pilot) and the oxygen line; the torch burns oxygen and propane.

Maintenance kit

CODE	SPARES
M0044	WATER TRIDENT
M0050	PILOT FLAME
C0358	BSP RING NUT
VI6GM-38FP	NESPLON 6 PILOT
M0043AC	MIXER BS/P1 3 HOLES
M0043	MIXER BS/P2-4 6 HOLES
