LEM/S grip

Product description

The LEM/S universal grip is compatible with HB, MPS, MPT, SECUR/2000 and RF/2000 lances.It has both oxygen and propane regulating taps; a G3/8" M threaded inlet connection with a right-hand thread is used to connect the oxygen, while a left-handed thread connector is used for the propane.We recommend installing suitable flashback arrestors and reverse flow check valves on the inlet (VI6O08 and VI6G08).
