

LITTLE/F torch

Product description

The LITTLE/F automatic flaming torch is designed for the automatic flaming of slabs or flat surfaces; the welding torch has a built-in trident cooling system to cool the head and stone. Compatible with all BS, FDT/3-4 series single-flame nozzles and BS/L and BS/T4 multi-flame nozzles. All LITTLE/F series torches have flashback arrestors and reverse flow check valves on both gas lines (main and pilot) and the oxygen line; the torch burns oxygen and propane.

Normatives

UNI EN ISO 9539 | UNI EN ISO 5172 | UNI EN 560
