

MPT

Product description

The MPT lances, with the LEM/S (M0007) universal grip, are used to flame edges; they are single-flame lances. On edges less than 30 mm thick we recommend using the 500 model lances, and the 800 and 1250 model lances on thicker edges. All MPT series lances use oxygen and propane.

Maintenance kit

CODE	SPARES
M0065E	MPT 500 TIP
M0065F	MPT 800 TIP
M0065G	MPT 1250 TIP
